

Area(s) Inspected:	RM#	Date of Inspection:		
Inspected by:				

Instructions:

- 1. Complete inspection on a regular basis. Edit this checklist to suit your specific location.
- Inspect each item on the checklist and mark as satisfactory (✓) or unsatisfactory (X).
 For unsatisfactory items, describe the deficiency and location in the space provided, and complete the details on the Hazard Record (page 2).
- 4. Take all necessary actions or make necessary recommendations to correct/control the deficiencies.
- 5. Forward copies to the local Safety Committee and/or management.

	Item	✓ or ×	Deficiency and Location
1	Laboratory dress: Appropriate PPE being used (lab coats, safety eyewear, etc.). No shorts, skirts or sandals.		
2	Food/Drink: Not present in lab.		
3	Housekeeping : Area is clean and tidy. Aisles and doorways free of slip/trip/fall hazards. Adequate ventilation, lighting and temperature.		
4	First Aid and Emergency Procedures: FA kit adequately stocked, logbook present, current information clearly posted, workers are aware of procedures.		
5	Fire Extinguishers: Accessible, signage present, in good condition, charged and inspected within last year.		
6	Emergency Eyewash and Showers: Accessible and labelled. Tested regularly.		
7	Equipment: In good condition. Handled and stored appropriately. No electrical hazards present.		
8	Gas Cylinders: Properly secured in upright position. Valves closed when not in use. Located away from exits and sources of heat and moisture.		
9	Chem Fume Hoods and Bio Safety Cabinets (BSC): Kept tidy, functioning, annually certified, fume hood sash at/below arrow.		
10	Chemicals: Proper supplier/workplace label on all containers, MSDS readily available, incompatibles separated, proper storage. Chemical Inventory: Up to date and posted on the lab door.		
11	Spill Kit: Accessible, signage present, in working order.		
12	Flammables: Less than 25 L in the open lab. Containers no larger than 5 L. Signage.		
13	Radiation and Biohazards: Warning labels posted outside door. Radiation licence(s) posted. Appropriate storage and signage.		
14	Seismic issues: Shelving secured, restraints present on shelves. Heavy items stored low.		
15	Lab Emergency Contacts: Specify on this worksheet and post on lab door two emergency contacts and their contact information for the lab – primary and secondary.		
16	Other:
